SEO / GEO / AEO Audit Report

FULL AUDIT · BULK (5,000+ UNIT) REPOSITIONING

SEO	GEO	AEO
7	6	8
On Track	*On Track*	*Strong*

Audit date: 2026-10-11
Claude Skill and Plugin by Alex Labat

Executive Summary

Visalatchi Manufactures has a technically solid React site with build-time prerendering, per-page canonical tags, JSON-LD and a sitemap. But it was positioned for the opposite customer: "Low MOQs from 50 units" appeared in the homepage title tag, hero, footer, FAQs, product schema and every quote form, which attracted small-batch enquiries and pushed away 5,000+ unit buyers. This audit repositioned the whole site around a 5,000-unit MOQ and added two high-intent bulk landing pages. The most urgent step is deployment: the live site is reachable but still serves the old low-MOQ version, and until the new Web3Forms lead backend is switched on, enquiries only reach the team if the visitor presses Send in WhatsApp. The biggest opportunity is B2B marketplace and Google Business Profile presence, where Indian bulk packaging buyers actually start their search and where competitors like TGI Packaging already have listings.

Dimension	Score	Status	Key Takeaway
SEO	7/10	On Track	Bulk-intent titles, 2 landing pages, 2 new guides, self-hosted OG/logo and IndexNow are built. The live site still serves the old low-MOQ version until deployed.
GEO	6/10	On Track	Strong on-site entity data (schema, sameAs, llms.txt, AI bots allowed). Third-party listings, reviews and mentions are still missing; ready-to-paste copy is in the playbook.
AEO	8/10	Strong	Answer-first FAQs with FAQPage schema, question headings and comparison tables on every key page.
Combined	21/30		

Scope note: the audit machine's network could not open the live domain, so findings are based on the full source code and a production build of every route, cross-checked against the live HTML through a third-party fetcher. Core Web Vitals, backlinks and GBP insights need PageSpeed Insights, Google Search Console and the GBP dashboard.

Pages Audited

URL	Page Type	Notes
/	Homepage	Title/H1/hero rewritten for bulk; WebSite + Organization schema
/bulk-packaging-boxes	NEW landing page	Targets bulk/wholesale intent; FAQPage schema; MOQ table
/corrugated-box-manufacturer-chennai	NEW local landing page	Targets Chennai corrugated intent; NAP + plant visit FAQ
/d2c-packaging	Division page	Low-MOQ pitch replaced; estimator now enforces 5,000 min
/food-packaging	Division page	"MOQs that lock up capital" problem card replaced
/export-packaging	Division page	Meta updated; content already volume-oriented
/products	Catalog	Per-unit small-batch prices removed; MOQ 5,000 on every product
/products/* (9 pages)	Product pages	Titles "Bulk {product} | MOQ 5,000"; Product schema with eligibleQuantity
/faq	FAQ	Rewritten: 17 Qs led by MOQ, bulk pricing, "fewer than 5,000?"
/about	About / E-E-A-T	Story rewritten from small-batch to bulk focus
/contact	Contact / lead form	Quantity tiers now 5k-10k / 10k-25k / 25k-50k / 50k+
/blog + 6 posts	Blog	MOQ post rewritten: "Why a 5,000-unit MOQ lowers cost per order"
/blog/corrugated-box-price-factors-bulk	NEW guide	7-factor cost table; answer-first; links to bulk pages
/blog/how-to-choose-bulk-packaging-supplier-india	NEW guide	10-point checklist; warning signs; entity paragraph
robots.txt, llms.txt, sitemap.xml, IndexNow key	Crawl files	AI search bots allowed; llms.txt; 29 URLs in sitemap

SEO Analysis

Score: 7/10 · On Track

Technical On-Page

Signal	Finding	Status
Live site status	Reachable from a third-party fetcher (the earlier TLS resets were specific to the audit machine's network). The live HTML is still the OLD build ("Low MOQs from 50 units").	Needs Attention
Prerendering	scripts/prerender.ts renders every route to static HTML, so non-JS crawlers see full content. Verified on 26 routes.	Good
Title tags	Were "Packaging Manufacturer in Chennai…" with no bulk intent. Now e.g. "Bulk Packaging Box Manufacturer in Chennai | MOQ 5,000 | Visalatchi".	Good
Meta descriptions	Template index.html shipped a second hard-coded description ("Low MOQs from 50 units") on every page. Removed; now exactly one per page.	Good
Heading hierarchy	Single H1 per page; H2s now phrased as questions on landing pages.	Good
Canonical / robots meta	Self-referencing canonicals, index,follow; 404 is noindex.	Good
Open Graph / Twitter	OG complete. twitter:title/description were missing in prerendered HTML; added.	Good
OG / logo image	Logo now self-hosted (/logo.jpg); new 1200×630 branded OG image (/og-image.png) stating MOQ 5,000 on every page.	Good
Image alt text	Alt = product name only; images are Unsplash stock, not real factory/product photos.	Needs Attention
URL structure	Clean, keyword slugs (/products/corrugated-shipping-box).	Good

Content Quality

Signal	Finding	Status
Commercial positioning	Site sold small batches (50-unit MOQ) on 20+ surfaces. All moved to a 5,000-unit MOQ.	Good
Bulk-intent pages	No page targeted "bulk / wholesale packaging boxes". Two added.	Good
New buyer guides	Added "What decides the price of corrugated boxes in bulk" and "How to choose a bulk packaging supplier in India", linked from both landing pages.	Good
Pricing content	Small-batch unit prices (₹8-₹36) no longer valid at 5,000+ units; replaced with "volume quote". Publishing real 5k/10k/25k price bands would add a strong ranking and conversion signal.	Needs Attention
Proof content	No case studies, client logos, factory photos, machine list or capacity figures.	Missing
Freshness	Blog posts carry publish dates; MOQ post re-dated 2026-10-11.	Good

Structured Data

Signal	Finding	Status
Organization + LocalBusiness	Present with geo, hours, contactPoint; added knowsAbout, telephone and a makesOffer with eligibleQuantity minValue 5000.	Good
Product	Previously declared ₹36 price at 50-unit MOQ. Now MadeToOrder Offer, B2B customer type, minValue 5000. No price, so no Product rich result (acceptable for quote-based B2B).	Good
FAQPage	On /faq and both new landing pages.	Good

Signal	Finding	Status
WebSite / Breadcrumb / Article	WebSite added on home; Breadcrumb on all; Article on posts.	Good
sameAs	Wired to SAME_AS in siteConfig (GBP link today). IndiaMART/TradeIndia/LinkedIn URLs get added as each profile goes live.	Needs Attention

GEO Analysis

Score: 6/10 · On Track

E-E-A-T Assessment

Signal	Finding	Status
Named experts	Palaniappan (D2C) and Periyanan (export/food) named with roles and direct numbers; used as blog authors.	Good
About page honesty	Openly says it is a new business. Honest, but there is no proof (photos, years, capacity, certifications) to offset it.	Needs Attention
Reviews / testimonials	None on site; GBP review count unknown.	Missing
Certifications	Product copy mentions FSC kraft and FSSAI-compliant material, but no certificate is shown or linked.	Needs Attention

Content for AI Synthesis

Signal	Finding	Status
Quotable entity statement	New answer-first paragraphs: "Visalatchi Manufactures is a bulk packaging box manufacturer in Chennai… minimum order of 5,000 units…"	Good
Factual density	MOQ, address, hours, materials, lead times, ply guidance and a stock-cycle table. Missing: capacity, machinery, founding year.	Needs Attention
External brand mentions	A search for "Visalatchi packaging Chennai" returns only Visalakshi Plastics (Broadway). AI engines currently have nothing to corroborate the brand.	Missing
Source citation	FSSAI and ISPM-15 posts cite external sources.	Good

Technical GEO

Signal	Finding	Status
AI crawler access	robots.txt now explicitly allows GPTBot, OAI-SearchBot, ChatGPT-User, PerplexityBot, Google-Extended, ClaudeBot, Claude-SearchBot and Bingbot.	Good
llms.txt	Added, with key facts (MOQ, NAP, contacts) and the main page index.	Good
Lead capture	Web3Forms email delivery plus GA4 generate_lead and Google Ads conversion events added; active once the VITE_ env vars are set in Vercel.	Needs Attention
Bing / IndexNow	IndexNow key file and npm run indexnow script added; run after each deploy. Bing feeds ChatGPT Search and Copilot.	Good

AEO Analysis

Score: 8/10 · Strong

Featured Snippet Eligibility

Signal	Finding	Status
Direct answers	Every FAQ's first sentence works on its own (40-60 words).	Good
Definitions	"Minimum order quantity, or MOQ, is…"; "A 3-ply box has one fluted layer…"	Good
Lists	Buyer-type lists, 4-step bulk process (ordered list).	Good
Tables	MOQ tables on landing pages; stock-cycle table in MOQ post; product table on /products.	Good

Structured Answer Formats

Signal	Finding	Status
FAQ schema	3 FAQPage blocks (/faq, /bulk-packaging-boxes, /corrugated-box-manufacturer-chennai).	Good
Question headings	Landing-page H2s: "Who orders from us in bulk?", "How does a bulk order work?"	Good
HowTo / Speakable	Not used. HowTo rich results are deprecated; Speakable is optional.	Needs Attention

Voice Search Readiness

Signal	Finding	Status
Conversational Q&A	"Where can I buy packaging boxes in bulk in India?", "Who makes corrugated boxes in bulk in Chennai?"	Good
Local signals	Full NAP, geo coordinates, hours, map embed, North Chennai localities.	Good
Disqualifying FAQ	"I need fewer than 5,000 units" answer filters out small buyers before they enquire.	Good

Priority Recommendations

Priority	Issue	Dimension	Effort	Impact
Critical	Deploy this build to Vercel; the live site still says "Low MOQs from 50 units"	SEO	Low	Very High
Critical	Set VITE_WEB3FORMS_KEY (and the GA4 ID) in Vercel so every quote request is emailed and counted; the code is ready	Conversion	Low	Very High
Critical	Submit sitemap.xml in Search Console and Bing, request indexing of the new pages, run npm run indexnow	SEO/GEO	Low	High
High	Create an IndiaMART + TradeIndia paid seller listing with "MOQ 5,000" on every product; that is where Indian bulk box buyers send RFQs, and competitors (TGI, Srinivasa, Klassic, Kalpaka) are already there	GEO/Leads	Low	Very High
High	Update Google Business Profile: primary category "Corrugated box supplier" or "Packaging company", description stating MOQ 5,000, products with MOQ, 10+ real factory photos, weekly posts	Local	Low	High
High	Replace Unsplash stock images with real factory, machine and product photos (logo and OG image are already self-hosted)	SEO/E-E-A-T	Medium	High
High	Publish proof: capacity (boxes/day or tonnes/month), machinery, 2-3 anonymised bulk case studies, certificates (FSC/ISO/FSSAI) if held	GEO	Medium	High
Medium	Run Google Ads on exact-match bulk terms ("corrugated box manufacturer chennai", "bulk mailer boxes", "5 ply carton box supplier") to the new landing pages while organic builds	Leads	Medium	High
Medium	Get listed on JustDial, Exporters India, Udyam/MSME directories and Tamil Nadu packaging associations with identical NAP; add the profiles to schema sameAs	Local/GEO	Low	Medium
Medium	Publish indicative 5k / 10k / 25k price bands for 2-3 standard sizes, a strong ranking and lead-quality signal for bulk buyers	SEO	Low	Medium
Quick Win	Ask every existing customer for a Google review that mentions the product and quantity ordered	Local	Low	Medium
Quick Win	Add a LinkedIn company page and post plant/production updates; link it from the footer and schema	GEO	Low	Low

Path to 30-40 Bulk Enquiries a Month

SEO alone will not deliver 30-40 qualified 5,000+ unit enquiries a month from a new domain with no brand presence yet. The realistic route stacks channels. Ranges are planning estimates, not guarantees.

Channel	Est. bulk enquiries / month	Ramp-up	How
IndiaMART / TradeIndia paid listing	10-20	Weeks 1-4	Buyers post RFQs with quantity; filter for 5,000+
Google Ads (exact-match bulk terms)	5-10	Weeks 1-4	Send to /bulk-packaging-boxes; exclude "small quantity", "sample"
Google Business Profile + reviews	3-8	Months 1-3	Map pack for "corrugated box manufacturer near me" in North Chennai
Organic SEO (new pages + blog)	3-10	Months 3-6	Compounds once the new build is deployed and indexed
LinkedIn / direct outreach to FMCG & exporters	3-6	Weeks 1-8	Use docs/seo-plan/sales-prospecting-tamil-nadu.xlsx

Every channel should state "MOQ 5,000 units" up front, trading enquiry volume for enquiry quality.

What's Working Well

Build-time prerendering	Every route ships full HTML, critical for GPTBot/PerplexityBot/ClaudeBot, which do not run JavaScript.
Single source of truth for head data	routes.ts feeds both the runtime Seo component and the prerender script, so meta tags cannot drift.
Verified NAP and geo	Address, coordinates and hours match the GBP pin, and one PLANT_ADDRESS constant prevents NAP drift.
Honest content discipline	No invented stats or client names; regulatory posts cite sources. This protects E-E-A-T.
Named, reachable specialists	Direct phone/WhatsApp numbers for two named experts, a strong trust and conversion signal for B2B.
Restrained local targeting	City-level areaServed and no doorway pages per neighbourhood, so there is low spam risk.

Glossary

Term	Meaning
SEO	Search Engine Optimization: ranking in Google and Bing's classic blue-link results.
GEO	Generative Engine Optimization: getting cited by AI answer engines such as ChatGPT Search, Perplexity, Gemini and Google AI Overviews.
AEO	Answer Engine Optimization: winning featured snippets, People Also Ask boxes and voice answers with concise, structured answers.
MOQ	Minimum order quantity: the smallest batch produced per order (5,000 units at Visalatchi).
